

INNOVATIVE HACKATHON ON MISSION LiFE

- RDPC in collaboration with a knowledge partner to launch an innovative hackathon to discover new concepts and technological solutions for the environmental challenges faced by Delhi.
- The Main objective of the environmental hackathon is to encourage creative and imaginative minds to propose new frameworks in the field of the environment, by developing innovative ideas and technologies that can efficiently reduce human impact on the environment.
- Proposed hackathon will have 4 problem statements related to the environmental domain against which the innovative minds will be able to submit their ideas and compete against each other. The problem statements are:
 - Improving Air Quality
 - Rejuvenating River Yamuna.
 - Alternatives to Single Use Plastics.
 - Strengthening Solid Waste Management Systems.
- Proposed hackathon will be conducted in physical mode in two phases viz. Initial Phase/Idea screening round and Grand Finale round. In the initial round the ideas will be thoroughly screened and scrutinized and the selected ones will be moved for the Grand Finale that will be held afterwards.
- The submitted ideas will be evaluated by a group of experts in the field and only the innovative ideas will be selected for the Grand Finale round.
- Prize Money worth **Rs. 50,000/-, Rs. 40,000/- and 25,000/-** will be awarded for 1st, 2nd and 3rd position for the winning teams in 4 different themes. The knowledge partner will support DPCC on a no cost basis in organizing this hackathon, marketing the event, driving registrations etc.
