

Delhi Pollution Control Committee

Sub: Monitoring of industries by DPCC

DPCC Air laboratory undertake the monitoring of industries on request of individual cells and/or on the request of the industries on payment basis.

The empanelment of the Pvt. Laboratories have been expired on 30th June 2016. It came to notice that the when representatives of industries approach the enquiry counter for submission, either the request is not revived or kept pending . This is creating undue problems to industries so it is proposed that till further order such requests may be allotted to DPCC lab for monitoring.
