

Daily operational status report of individual STP

Name of STP:

Date of operation of STP:

Capacity of STP:

Total Flow Available:

| S.No | Unit/ Equipment | Total No. | Operational | Non-operational | Reasons of Non-operational | Remarks |
|------|--|-----------|-------------|-----------------|----------------------------|---------|
| 1 | Screens (types) | | | | | |
| 2 | Grit chambers | | | | | |
| 3 | Primary Settling Tanks | | | | | |
| 4 | Aerators | | | | | |
| 5 | Final Settling Tanks | | | | | |
| 6 | No. of sludge pumps | | | | | |
| 7 | Sludge Thickeners | | | | | |
| 8 | Sludge Drying Beds | | | | | |
| 9 | Sludge Digesters | | | | | |
| 10 | Gas Holders | | | | | |
| 11 | Quantity of gas generated (m ³) | | | | | |
| 12 | Quantity of Gas flared without any use (m ³) | | | | | |
| 13 | Quantity of gas used for electricity generation/ other purpose (m ³) | | | | | |
| 14 | Bypass channels (Total No. with location) | | | | | |
| 15 | Flow meter reading at inlet | | | | | |
| 16 | Flow meter reading at outlet | | | | | |
| 17 | Total quantity of effluent treated | | | | | |
| 18 | Quantity of Sludge generated per day | | | | | |
| 19 | Total No. of workers/ Staff | | | | | |
| 20 | If the plant is not in operation give reasons in detail | | | | | |
| 21 | Quantum of Reutilization of treated effluent | | | | | |
| 22 | Area of Reutilization | | | | | |
